Result:

Knowledge<52, People<37, People>59, 33<Priority loss

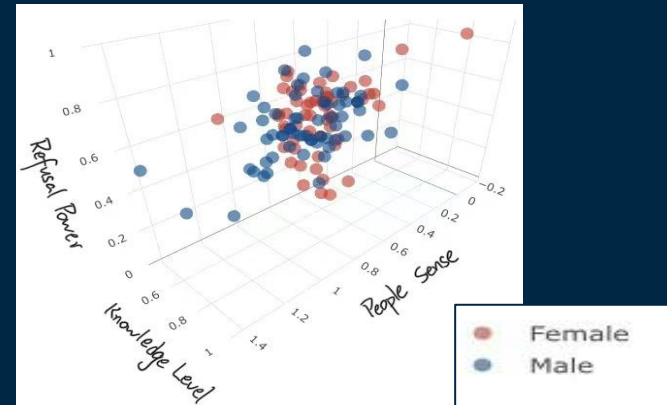

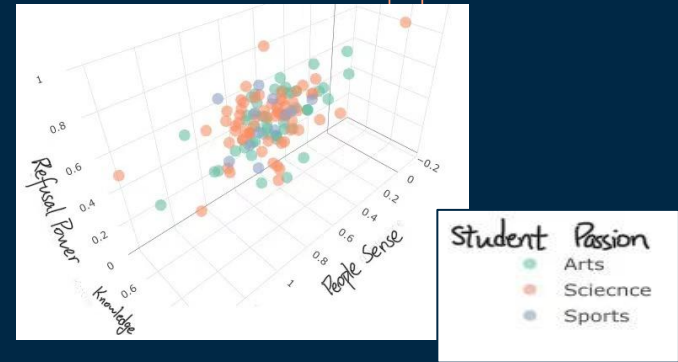

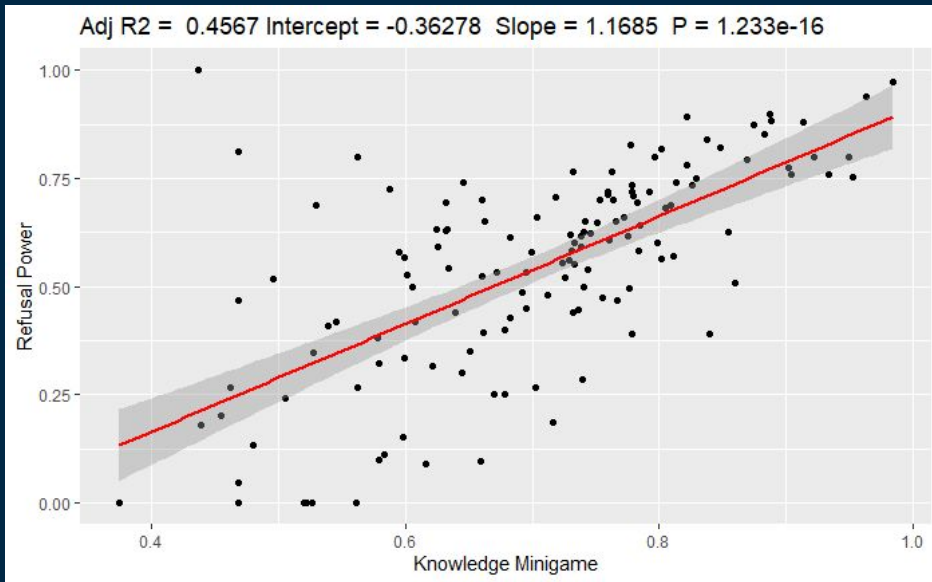

Model	Test set	
	False	True
False	2	2
True	0	21

Refusal Power Study: What decides a student's ability to refuse others

Analysis:

1. Refusal power is highly correlated with educational level in sex and drug abuse, and the ability to tell good influence from bad.
2. Gender, Career passion has no significant effect on Refusal power, Knowledge Level, or People Sense

Advice:

1. solely education of sex and drug abuse on middle school kids are not good enough, English comprehension ability is also vital to prevention of drug and sex abuse.
